* "Trends in the n	numbers of i	npatients" are	based o	on the "Surveill	ance of the Sta	atus of Ca	are for Patients	with the Novel	Corona	virus Infection and the Number of Beds.	" by the Ministry of Health, Labour and V	Velfare. With this surveillance.

^{* &}quot;Trends in the numbers of inpatients" are based on the "Surveillance of the Status of Care for Patients with the Novel Coronavirus Infection and the Number of Beds," by the Ministry of Health, Labour and Welfare. With this surveillance, the results as of 0:00 on the presentation date are published.

Regarding the number of severe patients, the subject criteria differ from those for the data published prior to August 14. In the same survey (published on January 29, 2021), the use rate of secured beds for severe patients in Tokyo was described as "The number of severe patients, 567, was counted based on the national criteria for this survey, and cannot be compared simply with the number of secured beds of 500."

↑, ↓, and → indicate an increase, a decrease, and the same level, respectively, compared to the previous week.
