* “Trends in the numbers of inpatients” are based on the “Surveillance of the Status of Care for Patients with the Novel Coronavirus Infection and the Number of Beds,” by the Ministry of Health, Labour and Welfare. In this surveillance, the results as of 0:00 on the presentation date are published.

↑, ↓, and → indicate an increase, a decrease, and the same level, respectively, compared to the previous week.

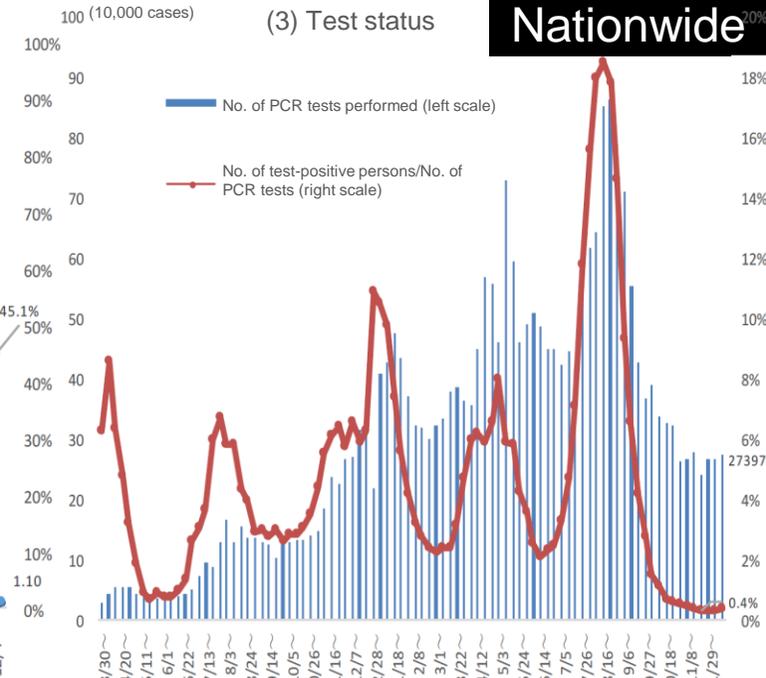

(1) No. of new cases of infection reported

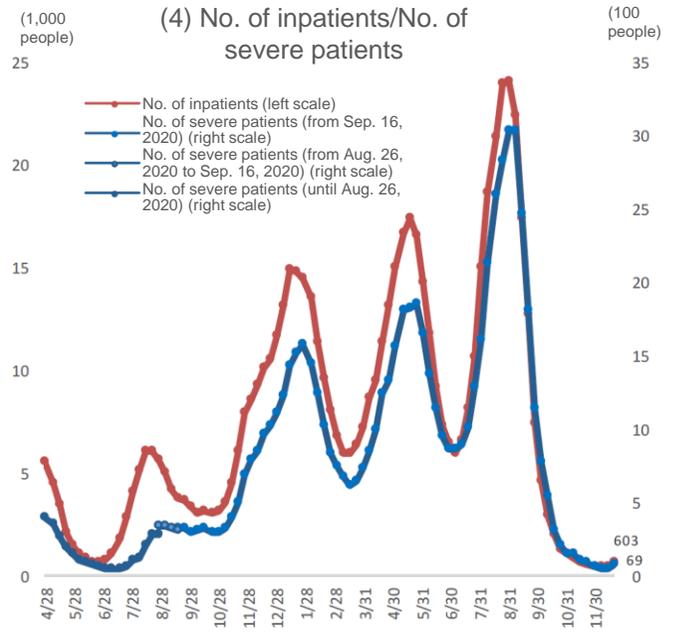

(2) No. of new cases of infection (per 100,000 of the population)/Percentage of unlinked cases

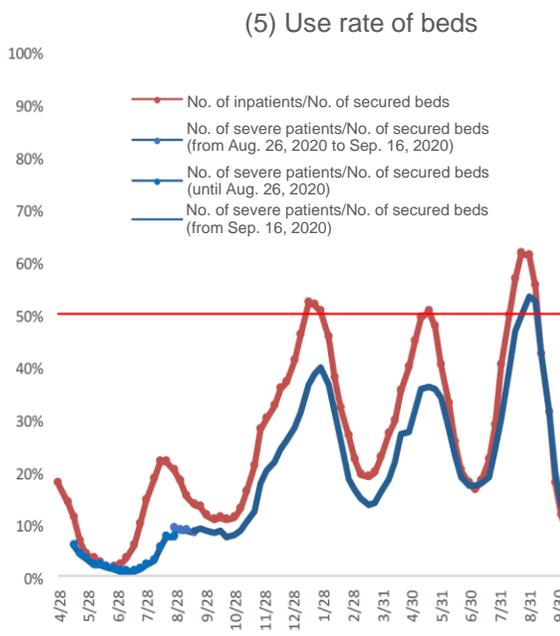

(3) Test status

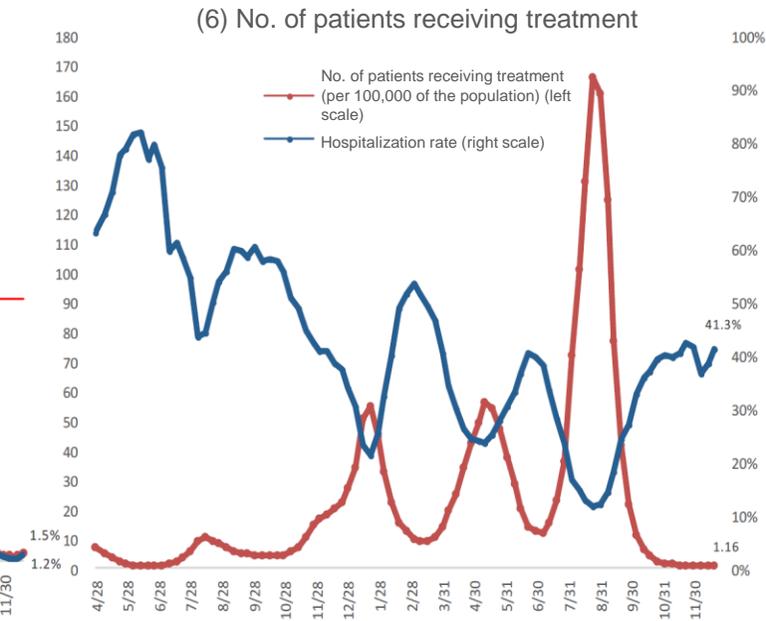

(4) No. of inpatients/No. of severe patients

(5) Use rate of beds

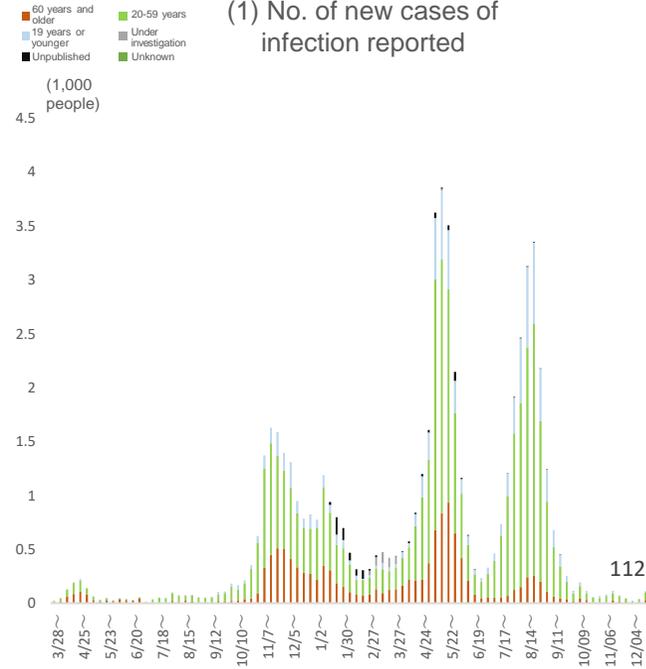

(6) No. of patients receiving treatment

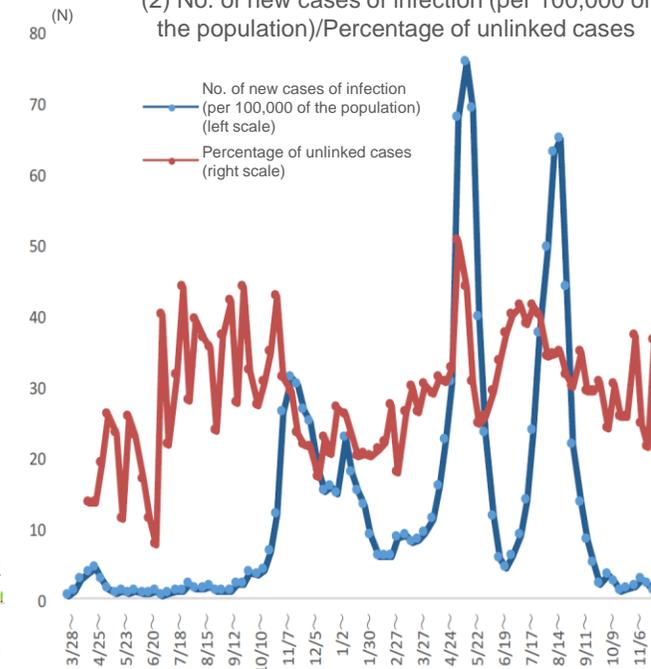

* The numbers per 100,000 of the population were calculated based on the population estimations as of October 1 of each year by the Statistics Bureau of the Ministry of Internal Affairs and Communications until December 4, 2021, and the National population census in 2020 from December 5, 2021.

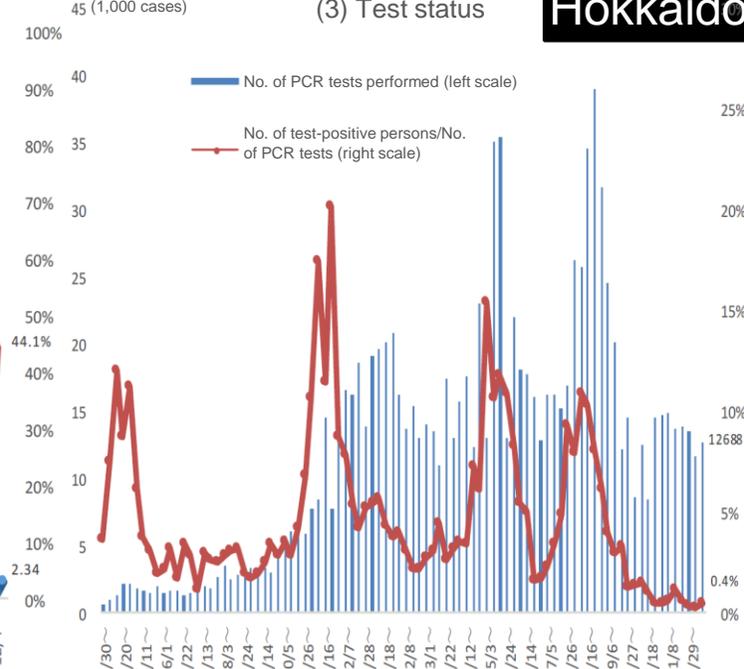

(1) No. of new cases of infection reported

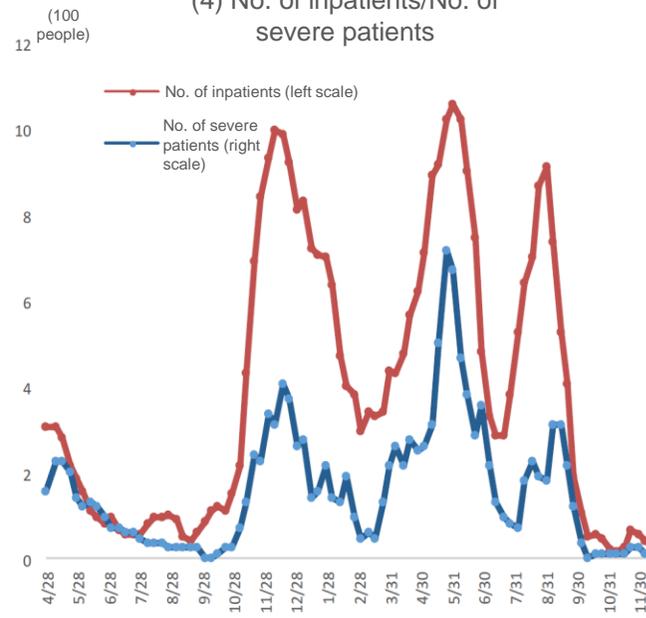

(2) No. of new cases of infection (per 100,000 of the population)/Percentage of unlinked cases
